

## TOOL

# National Variety Profiler

This tool will provide you with notable regions and sensorial characteristics of some of the most widely grown grape varieties in the United States. Note that it doesn't include all of the top ten varieties, as some of those were included in the Global Grape Profiler.

## National Variety Profiler

Variety	Notable region	Aromas and flavors	Acidity	Body and mouthfeel
<b>Zinfandel (primitivo)</b>	California's Central Coast, Sonoma	Blackberry, blueberry pie, cinnamon, tobacco	Medium	Medium+ tannin, medium+ body
<b>French colombard</b>	California's Central Valley	Green apple, honeydew, lemongrass	High	Light
<b>Pinot gris (pinot grigio)</b>	California, Oregon	White peach, lemon peel, almond	Medium+ acidity	Light+ body
<b>Rubired</b>	California	Nondescript (used for color)	Medium acidity	Medium tannin, medium body
<b>Muscat of Alexandria</b>	California's Central Valley	Mandarin orange, white flowers, honey, lychee	Medium acidity	Medium body
